

SIAM DSWeb 2018 Contest: Software on Dynamical Systems

Deadline for submissions ~~June 1~~ June 30, 2018

DEADLINE
EXTENDED!

The goal of the contest is to promote the development of novel and creative software-based methods to analyze dynamical systems. Contributions of any kind that help to examine the behavior of dynamical systems are welcome.

Winners will be selected in three categories:

- (1) undergraduate and graduate students,
- (2) postdocs and junior faculty or researchers,
- (3) senior faculty or researchers.

Entries will be judged on ease of use, effectiveness in solving a problem, genericity of the type of problem the software can tackle, and clarity of documentation.

Selection committee: Bard Ermentrout, Flavio Fenton, Peter van Heijster, James Meiss, Lennaert van Veen.

Winners will be announced in the DSWeb magazine and at the SIAG DS-sponsored session at the SIAM Annual Meeting. Winning entries will be published in the DSWeb Software Section.

Prize money totaling \$1500 will be awarded and shared among the winners.

For questions contact DSWeb Software Chief Section Editor Erik A. Martens (DSWeb-Software@siam.org)
